The Filer Research Institute feels the scientific study of UFOs is for the benefit of humankind and is an important endeavor. The weekly intelligence report provides you with information on the latest sightings and UFO news that you need to understand the world situation.

In special reports, this week's files cover: Angels Are Visiting Earth, UFO advocate John Podesta is President Obama's newest advisor, Avionetas in the Bogota Gold Museum, and Mars Living Organisms.

Unidentified Aerial Phenomena sightings were reported over: Arizona, California, Florida, Kentucky, Maine, Massachusetts, Missouri, Nevada, New Jersey, New York, Oklahoma, Oregon, Pennsylvania, Tennessee, and Texas.

Sightings of UFOs were also reported in: Australia, Canada, Cyprus, Kenya, Mexico, England and Scotland in the United Kingdom.

The purpose of these files is to report the UFO eyewitness and photo/video evidence that occurs on a daily basis around the world and in space. These Files assume that extraterrestrial intelligent life not only exists, but my hypothesis is that the over a thousand UFOs reported each month represent technologically advanced spacecraft conducting surveillance of Earth. I personally became interested in UFOs when London Control ordered me to intercept one over England while flying for the US Air Force and Prince Phillip told me of his personal interest in UFOs. The US Air Force investigated UFOs for more than twenty years under Project Blue Book; and I continue this advanced research. I believe the God of the universe has spread life throughout the cosmos and UFO's are visiting us in ever-increasing numbers.

Angels Visiting Earth

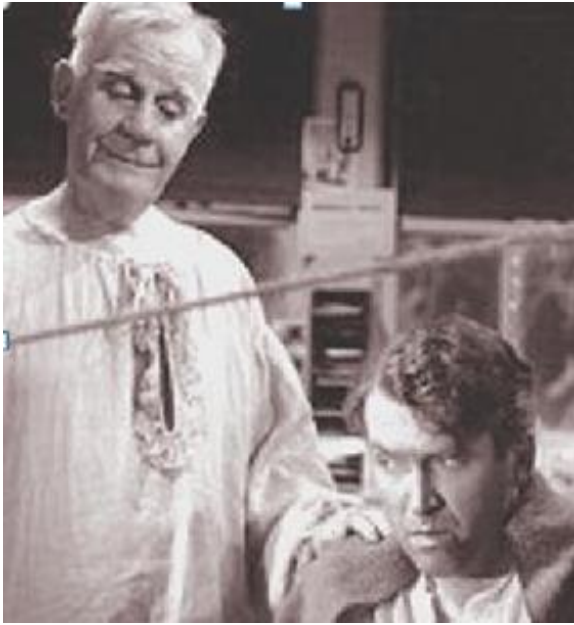

It seems fitting that during the holidays that we should discuss Angels that many people feel have a strong connection to extraterrestrials and UFOs. Countless witnesses claim to have seen Angels, and many people claim they have their own Guardian Angel who watches over them. Thousands of books, television shows, paintings, and movies indicate Angels are real. I have a friend Alice who was dying whose Doctor told her parents she would not live through the night. She insists Angels came that night and healed her by shining a green light on her. Her parents found her playing on the floor the next morning healed. Extraterrestrials can be mistaken for Angels or they can be mistaken for ET. Of course many believe of Heaven as a mystical home of God, but many passages in ancient scriptures indicate that Heaven is a real planet in the northern sky with animals, armies, buildings and mansions.

A few years ago, I had dinner with Zecharia Sitchin the bestselling author of books called the "*Earth Chronicles*." He told me that Genesis is true and ought to be read as a historic and scientific document rather than just a religious one. He felt ancient civilizations are older and much more technically and scientifically oriented than we once believed. Ancient Sumerian texts as well as the Bible reveal the existence of Angels or Annunaki, '*those who from Heaven to Earth Came*.' He felt that only in recent years has modern science caught up with ancient scientific knowledge.

Almost every book in the Bible discusses Angels that are defined as God's celestial superhuman beings from Heaven who are introduced as messengers, mediators and even prosecutors between God and humankind. We celebrate Christmas throughout much of the world based on the birth of Jesus Christ 2000 years ago announced by Angels and marked by the Star of Bethlehem.

We are told they are sons of God and come from a planet called Heaven and are given credit for many healings and the protection of many people throughout history. The Bible records 104 appearances of Angels to men on Earth and that one

third of the Angels rebelled against God and came to deceive man. There are apparently Angels who Guard us while others tempt us. The Bible claims that the Angels are sent by the Father in Heaven who promises the greatest gift of all, 'eternal life.' I've studied the Bible, the Torah, the Koran and many ancient writings that explain the Angels, the messengers of God, brought the Holy Scriptures to man. Think of these ancient writings as not only religious, but also as technical, historical and moral imperatives.

One famous Guardian angel is Clarence who saves Jimmy Stewart in the movie, *"It's a Wonderful Life."* Some people claim to have seen bright lights or human like beings that they associate with Angels.

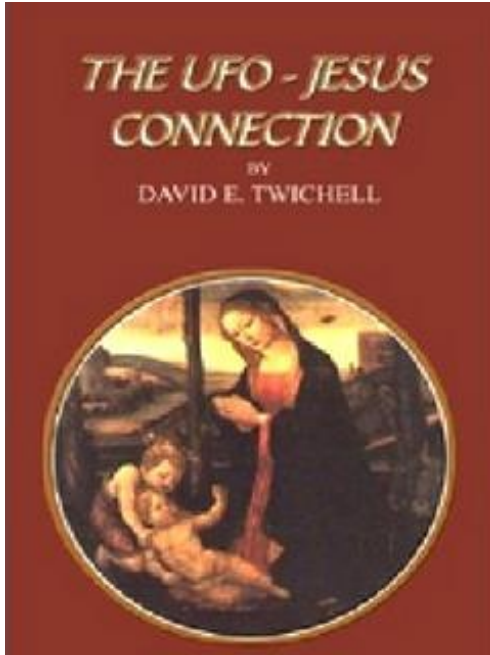

Some people claim they speak with Angels in books such as *"Talking with Angels."* *A Firefighter and his wife not only talk with Angels but can see them and work with them.*

The Commandments prepare us for joining other civilizations as we journey into space. ***"You shall love the Lord your God with all your heart, and with all your soul, and with all your mind."*** ***This is the greatest and first commandment. And a second is like it: "You shall love your neighbor as yourself."*** ***On these two commandments hang all the law and the prophets.'*** ***Honor your father and your mother, You shall not murder, You shall not commit adultery, You shall not steal, You shall not bear false witness against your neighbor, You shall not covet your neighbor's house; you shall not covet your neighbor's wife, nor anything that is your neighbor's."*** Earth's inhabitants are often at war and other civilizations would not want a world that strives to conquer and enslave others to roam the universe.

In the New Testament of the Bible it states: ***"In the sixth month, God sent the angel Gabriel to Nazareth and a town in Galilee, to a virgin pledged to be married to a man named Joseph, a descendant of King David. The virgin's name was Mary. The angel went to her and said, The Lord is with you."*** Mary was greatly troubled at his words and wondered what kind of greeting this might be. But the angel said to her, ***"Do not be afraid, Mary, you have found favor with God. You will be with child and give birth to a son, and you are to give him the name Jesus. He will be great and will be called the Son of the Most High and his kingdom will never end. Mary asked the angel, "How can this be, since I am a virgin?" The angel answered, "The Holy Spirit will come upon you, and the power of the Most High will over shadow you. So the Holy One to be born will be called the Son of God!"*** Luke 1-verses 26 to 35. Two thousand years later, much of world celebrates this birth at Christmas.

Much of our history revolves around visitors from a planet called Heaven. In Indian Vedic writings the topmost authority in the material universe is Brahma, who lives in the highest material planetary system, called Brahmaloaka. In these writings they describe UFO like craft called vimanas flown by angelic like alien beings. These extraterrestrial angelic visitors are real according to most of the great historic religious writings of mankind. It seems reasonable that these are not simply myths, but are based on actual visits by Angels, visitors, watchers, ET, divas or whatever you choose to call them. They are given credit for bringing writing to Earth.

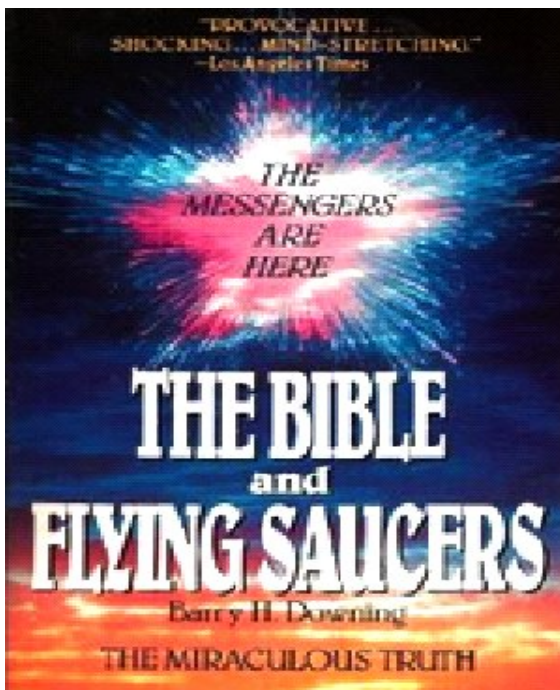

TV personality and author David Twichell says, ***“The ancient astronaut and Biblical UFO hypotheses are not new. However, no one seems to want to take the matter to the next logical step.”*** If Ezekiel’s wheel within a wheel and Moses’ “pillar of fire and cloud” were forerunners of today’s UFOs, then the Star of Bethlehem and the brilliant cloud to which Jesus ascended must be treated in the same vein. When Biblical descriptions of anomalous aerial phenomena are overlaid on that of modern-day UFO reports, the picture seems to meld as one. Once the evidence has been presented, the reader is led to a conclusion that is at best convincing and at least thought provoking. Bethlehem and the brilliant cloud to which Jesus ascended must be treated in the same vein.

Remember, ***“For we are fighting with people not made of flesh and blood, but against persons without bodies—evil rulers of the unseen world, those mighty satanic beings and great evil princes of darkness who rule this world, and against huge numbers of wicked sprits in high places. Put on all God’s armor so that you will be able to stand safe.”*** Ephesians 6.

When I spoke to Presbyterian minister Barry Downing with a Ph.D. in science and religion, who has written extensively about UFOs such as the "Bible and UFOs" told me UFOs provide evidence for the reality of Biblical phenomena, such as visits by Angels that have often seemed mythical to many people.

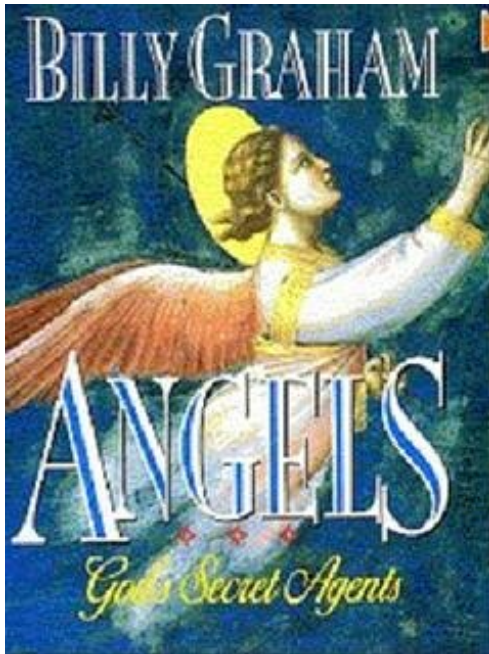

Of course, I wonder more than that. I wonder if what we now call the UFO reality, and what the Bible calls the angels of God, are not the same reality. If this is true, then we humans have a lot of thinking to do: thinking about God, about the nature and destiny of the human race, about the relation of the UFO reality to all that humanity has been, and will be. In fact, in a universe that scientists believe is well in excess of 15 billion years old, we have to wonder how biological life on earth “evolved,” if it evolved. Or has the development of life on earth as we know it been directed? Is the earth the laboratory of some kind of Higher Reality? This would mean that life on earth is not the result of “pure evolution,” as many scientists have argued from Darwin to the present. Nor does the biblical story of creation in Genesis tell us the whole story.

Recently in Philadelphia dozens of children during a church service claim to have seen Angels, while older people were unable to see them.

Carl Sagan was the Director of the Laboratory for Planetary Studies at Cornell University. He played a leading role in the American space program since its inception in his book, ***“Intelligent Life in the Universe”*** indicated Earth had likely been visited by extraterrestrials. He states: ***“I feel that if the Sumerian civilization is depicted by the descendants of the Sumerians themselves to be of non-human origin, the relevant legends should be examined carefully.”*** (Page 456) He goes on to ask, ***“What might an advanced extraterrestrial civilization want from us?”***.....He answered his own question again by stating, ***“One of the primary motivations for the exploration of the New World was to convert the inhabitants to Christianity -- peacefully if possible -- forcefully if necessary. Can we exclude the possibility of an extraterrestrial evangelism?”*** (Page 463)

The logical question is what has this to do with UFOs? I suggest there is a strong connection. Billy Graham, the evangelical minister and the friend of US Presidents in his book, "*Angels God's Secret Agents*," makes the following surprising statements, "*Yes, Angels are real. They are not the product of your imagination.*"

"If we had open spiritual eyes we would see not only a world filled with evil spirits and powers—but also powerful Angels with drawn swords, set for our defense."

Dr. Billy Graham lifts the veil between the visible and the invisible world to give us an eye-opening account of these behind-the-scenes agents. This best-selling classic has sold 3 million books records the experiences of Dr. Graham and others who are convinced that at moments of special need they have been attended by Angels. Dr. Graham affirms that:

God's invisible hosts are better organized than any of the armies of man—or Satan. "*Angels think, feel, will, and display emotions.*"

Angels guide, comfort, and provide for people in the midst of suffering and persecution. At death, the faithful will be ushered by Angels into the presence of God.

Dr. Graham who was the spiritual leader to numerous Presidents states,

"Some have speculated that UFOs could very well be a part of God's Angelic host who preside over the physical affairs of universal creation.

While we cannot assert such a view with certainty nothing can hide the fact that these unexplained events are occurring with greater frequency around the entire world. Some take the detailed descriptions of a highly credible airline crew and lay them alongside Ezekiel and put forth a strong case ---- such theories are now being given serious attention even by people who make no claim to believe in the God of the Bible. UFOs are astonishingly Angel-like in some of their reported appearances."

Most of the description of Angels compares nicely with our available data of at least one group of the alien visitors. In Genesis, the first book of the Bible and Torah; Angels are described as having bodies with parts such as hands, feet, eyes, head, voices, mouths, hair, faces and other human body parts.

One interesting fact is that the Bible often mentions the Angels in Glowing Metal craft. The Hebrew word '**hashmal**' refers to glowing metal in the description of the divine glory and brightness and the appearance of fire from the craft. The descriptions of Ezekiel in the Bible (1:4, 8:2) clearly indicate brilliant highly polished glowing yellow like brass or electrum an alloy of silver and gold.

Throughout the Bible and Torah we are told that the Angels were able to introduce life into old women and even virgins. For example, part of God's covenant with Abraham and Sarah his barren 90 year old wife was to give them a son Isaac. Some of these births that appear supernatural could be accomplished by advanced technology. I should mention some Angels such as the Devil are fallen Angels or evil towards humans. John the Baptist was also born after the Angel Gabriel appeared before Zechariah and his barren wife Elizabeth.

According to the testimony of modern-day abductees similar births are occurring today.

To understand the full meaning of Christmas is to realize all that happens in the world may not be simply by chance; Angels may be here accomplishing miracles among us. So remember when you enjoy Christmas it all started with an angel. And if you are ever in trouble or need, never forget this wonderful promise, "***For he will command his Angels concerning you***

to guard you in all your ways." Psalms 91.

UFO advocate John Podesta is President Obama's newest advisor.

UFO advocate John Podesta was named as President Obama's newest advisor. He is the former Clinton chief of staff. Podesta has more than once publicly urged the U.S. government to release any UFO files that could help scientists determine "***the real nature of this phenomenon.***"

It is likely he will encourage the U.S. government to lift the veil on its UFO evidence. Podesta's stance on UFOs can be seen in the following video clip from the 2009 James Fox film, "***I Know What I Saw.***" Podesta also spoke at a 2002 news conference at the National Press Club in Washington, D.C., where he called upon the U.S. government "***to declassify [UFO] records that are more than 25 years old.***"

He wrote the foreword to Leslie Kean's 2010 New York Times bestseller, "***UFOs: Generals, Pilots, and Government Officials Go On the Record***":

The Washington Post reported, Podesta, 64, served as chief of staff to Bill Clinton when the president was in the Monica Lewinsky scandal and impeachment process. He will work for Obama for a year as an adviser in his inner circle, the Post said.

Podesta says, "***I'm skeptical about many things, including the notion that government always knows best, and that the people can't be trusted with the truth. The time to pull the curtain back on this subject is long overdue.***" Now that Podesta seemingly has Obama's ear, will the former White House chief of staff stay true to his stance on UFOs and would Obama consider releasing UFO information as a way to improve his popularity.

Mars Living Organisms

NASA's robotic rover on Mars has found signs that a vast and hospitable lake once spread over the now-desolate Martian surface, providing a potential home to past life for centuries or longer.

The shallow water body was roughly the size of one of New York's Finger Lakes. Its waters boasted low salinity, just the right acidity and all the chemicals needed to support living organisms. Other than on Earth, the lake was the most life-friendly place in the solar system, according to a study published in the journal Science and announced Monday at American Geophysical Union conference in San Francisco.

NASA soil mineralogist Douglas Ming, who took part in the new

research reports, *"Is this a smoking gun that this was a habitable environment? There's pretty good evidence for that. We have an environment that is very much like on Earth."*

UFOs over the United States

Arizona Lights

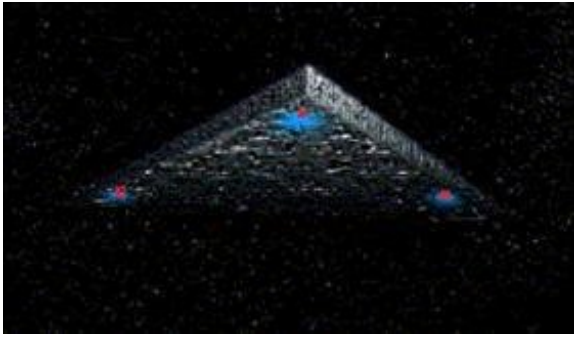

Arizona City -- Driving up my street I spotted two lights near Venus that disappeared, then I saw two more in the southeast sky on December 11, 2013, and they disappeared as well.

I saw another one alone in the southwestern part of the sky throughout a period of 45 minutes that would appear in random parts of the sky and would then disappear.

MANTECA -- *I was taking out some recycling and saw a triple red light high in the eastern sky on November 27, 2013, at 7 PM. After 20 seconds it grew huge as it flew directly overhead. It looked like an isosceles triangle wedge made of concrete gunmetal. It was a very thick with very sharp corners. There were three large red lights on the corners and a large white light in the center.*

It was like a very bright search-light that blinked like an aircraft light but there were no windows or landing gears. It was like a huge

metal wedge cut out of a mountain. It was flying in an arc that flew directly overhead and seemed to change shape into a giant cube. It felt like my mind was trying to make sense of something it couldn't properly interpret. This UFO looked like a part of a mountain was ripped out and when it flew overhead, it suddenly disappeared. I'm ex military; ex nuclear engine room supervisor. NOTE: The above image is a rendering.

KEN PFEIFER MUFON NJ WWW.WORLUDUFOPHOTOS.ORG *NOTE: We have been getting many UFO sightings that have the lights like commercial aircraft. I feel these alien craft are trying to hide in plain sight and trying to copy our aircraft lighting systems. I witnessed one last month with two green lights on one side and two red lights on the other. They were rectangular lights and I have not seen this type of lighting on our commercial or military craft. Thanks to MUFON CMS*

Colorado Lights

Colorado springs -- I did some more analysis on the images I shot on December 14, 2013 and saw a bright light shoot across Colorado Springs from east to west. It split into five individual lights and hovered. Its altitude was lower than Pikes Peak. I ran inside to get a camera, and when I came back out, there was a single light hovering over the mountain range to the south of Pikes Peak. Last night, it was hovering over a peak somewhere between Pikes Peak and Cheyenne Mountain.

I shot a series of photos on tripod, overexposed, so that I could see the mountain range and show the object was not stationary. To the naked eye, and in six photos, the object appeared as a very bright light. I used the mirror lock up function to insure there was no camera shake. Thanks to MUFON CMS

Florida Speeding Light

TAMPA -- Recorded sighting of UFO observed on ESPN television on Monday Night Football on November 11, 2013, passing over lights and game at tremendous speed.

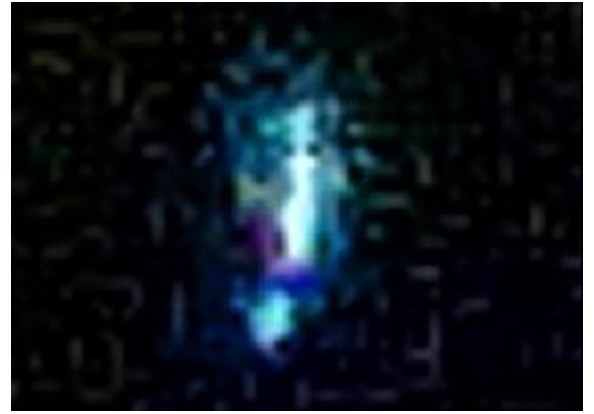

Tampa Buccaneers beat Miami Dolphins. When the Dolphins played in New Orleans on September 30, 2013, a UFO was also videotaped.

PENDLETON COUNTY -- Glenn Pennington here again, "I'm sending a few interesting pictures I took recently. I'm still trying to get help documenting our nightly visits from multiple UFOs.

I cannot afford better camera equipment; but I wish I could because we see some interesting things every night here. We are still experiencing nightly UFO visitations and the number of crafts seems to be increasing. I now have well over 40,000 pictures and thought I'd share a few as I haven't sent any for a few weeks. Still not getting much help in documenting this massive event from the UFO Research Community, but plenty of people in the county are now seeing them and making local reports on Social Media.

Maine Lights

YORK BEACH -- I saw an extremely fast moving aircraft headed northeast out over the Atlantic Ocean on December 15, 2013. Then a solid slow moving fireball appeared above the tree line. Using my binoculars the first object flew over Boon Island and burnt out like a shooting star. It then began to appear rapidly skipping positions at the blink of an eye all within a 500 hundred foot area. My impression was the object was scattering its position in order to make it difficult for a solid bearing on its location. Object then appeared in the NE tree line by the Cuddy Sark on Long Sands. You could see more red and green

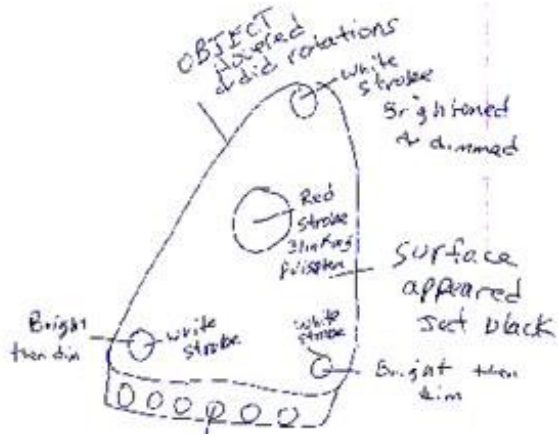

lights moving in a rotating like fashion. Shortly after the sighting a three light triangle pattern aircraft enter the space with a more predictable flight pattern. My dogs became restless during the sighting. Thanks to MUFON CMS

Massachusetts Five Lights

Boston – My brother was the outdoor balcony and yelled, "*Bro there's UFOs in the sky!*" I could see five balls of light that seemed to be in a V formation on December 10, 2013, and loud aircraft sound that may be coming from the commercial airliner flying in the vicinity of Logan airport. I'm a student from the UK and I have never seen a formation like this and thought could be helicopters. I was very surprised and not frightened. My brother was taking photos and video as they began moving off to the left slowly, one faster than the others. The object furthest to the left disappeared behind a building while the others very slowly followed. They broke their organized formation and traveled off toward the airport. After almost ten minutes of watching I went back inside. I searched the web and came across a video titled "*UFO Lights over Abington, MA heading to Boston*" depicted balls of flickering light on October 17 2012, that were very similar to the objects I saw. Thanks to MUFON CMS

Missouri Triangle

About 4:45PM every clear day since mid October I have been seeing a very bright star like object in the southern sky just south of my location. It is always in the same spot time after time. I begin watching the southern skies about 4:30 PM on clear days for it to appear. I focus on one specific spot and like clockwork it suddenly just "appears" out of nowhere including on December 12, 2013. When I first witnessed these phenomena I thought I was seeing things, but I have since had my uncle and my wife both watch for it. It will first appear as a small bright dot mid way up over the southern horizon. Watching for two hours with

binoculars I saw it was a bright triangle flying in an arc to tree top level. It has very large white blue lights on the three corners with a large red light in the center that pulsated. Around the edges it has extremely bright blue lighted windows. Then it would slowly spin clockwise and vary in brightness. It would also shoot out a beam of light from each corner, like a huge spotlight sometimes pointing down or sideways.

It would ascend or descend while rotating clockwise. A couple of times the object had fighter jets pursuing or accompanying it. As the object descends it finally goes dim or zips off to disappear. Sometimes it will appear in the morning around 5:30 AM and do the same motions. Please send someone up here to witness and photograph this thing. Thanks to MUFON CMS

Nevada Cylinder Changing Colors and Moving Fast

Henderson – The witness reports seeing a shadow like triangle, with no lights larger and faster than a commercial jet on December 8, 2013. There was no sound and it passed my field of view from north to south at 7:20 PM. It looked larger than an airplane but like a shadow but could make out it was triangular in shape and crossed the path the planes landing at McClain airport.

It was two toned the outer sides were lighter and the center was dark. It was large and low. It was fast passing between roof tops in a straight line due south. Thanks to Peter Davenport Director www.nuforc.com

NORTHWEST RENO -- For the last two days starting at the same time my friend and I have seen a craft of some kind appear and disappear in almost the same position. He called me and told me there was something in the sky and when I looked it was in the west by the Plumas Mountain Range. When I found it in the sky it was changing colors so I discounted it and told him it was a plane. I sat on my porch and watched and it didn't move for almost two full hours. I called a local news station and they said they had other reports and would check it out. Right about 7 pm as I was showing my wife and daughter it moved sharply to the west very fast and then really fast again disappeared behind the mountains.

The second night when it appeared it was bright white and moving in a circle pattern. I again called my friend and told him it was back in almost the same spot. We watched from our houses that are 15 miles away as we watched it change colors many times. I called the same station and they informed me again others have called but didn't have a chance to confirm. We all again watched it move erratically thru the sky and disappear behind the mountains.

Reno – The witness states, "As I got off the highway at South Meadows Parkway at 6 PM, and saw a bright light in the sky and thought it was the moon, but it was slowly turning as it got closer on December 5, 2013. As I turned onto Gateway Drive a lighted triangle shaped object flew over me really low, slow, and silently. I could see small lights flashing in the back and know this wasn't an airplane, and suddenly it was gone. Thanks to MUFON CMS

New Jersey Pyramid

BUENA -- I was walking with my friend with her dog in a field where the entire sky is visible on November 13, 2013, when I heard a humming noise. My friend said "*Uhhh, what is that?*" Even the dog was interested in it. It flew over three hundred yards to the left, and that high in the air. Its shape was an upside down pyramid, with orange blinking lights on each corner that flashed sporadically. The tip of the pyramid, which was facing the ground, was illuminated with orange lights all around about halfway up. The space between these lights and the lights on the corners was completely dark. It traveled northwest at a steady slow speed for two minutes, as it just got smaller into the distance. It just sort

of vanished and may have shut off its lights as it came upon more populated areas, like Washington Township. I have beyond perfect distance vision. NOTE: The above image is a rendering. This case is under investigation by Ken Pfeifer of MUFON New Jersey.

New York Spinning Light

Encinitas -- My wife and I were walking to dinner and noticed on December 11, 2013, around 8 pm, when I saw a stationary spinning light. I grabbed my camera phone to see the object was still in the sky before we walked into the restaurant. The object appeared circular and had three roaring lights that were moving rather quickly. The lights were magenta and a light green and occasionally transitioned into adding a yellow light into the rotating motion.

The even crazier part was about 10 degrees away was a solid dark black circular object that was pitch black. The distance between the two objects didn't seem to change unable to get the black object on video. My wife was very scared and wanted to get out of the area immediately. Thanks to MUFON CMS

Oklahoma Light

GUTHRIE -- I was at my house and went outside to smoke a cigarette when I noticed a bright light hovering in the northeast sky at 3:50 am, on December 11, 2013.

It was pulsing and changing colors and made no sound while it hovered.

Pennsylvania Truck Driver Has Close Encounters

ERIE -- In the past couple of months my girlfriend, my son and I have witnessed Gray Aliens; the small ones running across Route 80 between 1 am and 3 am as we drive past on my job. They made my girlfriend's vision foggy and affected her mind. They look skinny running with their backs perfectly straight not leaning forward like a normal person runs. Their arms stay straight at their side with no movement; not swinging like a normal person would run.

At first we saw red lights landing and then splitting in two and following us down the highway for five miles. If I put on the brakes or accelerated so would the UFO. Now at 1 am in the past two nights the big bright green orbs have been aimed directly at my truck. They caused a tractor trailer to slam on his breaks last night and nearly crash. I feel they are shooting at me as the orbs head directly toward my truck.

My job requires me to travel this route at night and there is a small area where these things happen at least once a week. A white light landed a couple feet from my truck on Routes 80 and 322. I'm starting to get mad, if it happens again I'm taking my friend with his Geiger counter and if there's no radiation detected, I'm going into the woods after them. I want to mount an ugly gray head above my fireplace. NOTE: The above image is a rendering. Thanks to Ken Pfeifer MUFON NJ www.worldufophotos.org

Oregon Lights

Klamath Falls – On December 14, 2013, at 9 PM, I saw hovering red lights. Then after about a half hour they appeared to blow up with light.

Then they took off SILENTLY, and looked like comets when they flew away.

Tennessee Light

Roellen -- My daughter was on the school bus around 7 am and was looking out the window and thought it was a meteor, and took the picture on November 19, 2013. She also thought it was a meteor and thought she would take a picture of it because I'm a meteor hunter.

It was stationary unlike a meteor and descended slowly like a UFO and was gone. Thanks to MUFON CMS

Texas Alleged UFO

My father works in an oil company and someone was taking the crude oil in the night so they started putting cameras up around the area. One night a camera caught a UFO so the witness explains that the photo had been circulated. The news spread throughout the workers and they soon emailed it to my father and now I'm posting it here on MUFON.

Worldwide UFO Reports

Australia Circle

Glen WAVERLEY -- I was outside my house on December 15, 2013, when I noticed in the clear the night sky I saw a bright shooting star ascending from the ground to the stars at rapid pace. It was moving very fast leaving a trail behind and then just vanished into the dark sky. I was truly amazed at its speed and there was no sound. My first thought was "*Do shooting stars fly in that direction?*" I wanted to inform you to find in someone else saw it. I really feel as though I may have witnessed something truly amazing. I do have the greatest skyline view from my house and this is the first time I've seen anything like this! Rob. Thanks to MUFON CMS

Canada Light

TORONTO – I went to the window to close the drape and noticed a golden pulsating light as if it was a giant star. It wasn't Saturn and went out to take a photos and video. I call this sighting a UAP & not a UFO cause I'm not sure if it is actually an extraterrestrial spaceship. I did not feel any usual humming or pressure and was interested because it looked very pretty like a large golden oval. It had all kinds of shapes and colors with a golden and white with a greenish to pink hue.

It just pops into the sky nearly in the exact position on the photos. To summarize it showed up on: November 19th, December 11, 12, and the 16th, 2013. So far I've analyzed the photos and I must admit a lot of it

leaves one mouth gaping in awe. Thanks to MUFON CMS

Sicamous, British Columbia – I saw a bright light from our second floor balcony that moved slowly west until it was obstructed by a small mountain a 1/4 mile from us on November 20, 2013, from 4:45 to 5:05 PM. I used my telescope to view the light and could see the object clearly. It reminded me of the Epcot Centre with lights at each point. It was flying under 10,000 feet in altitude and perhaps 250 feet in diameter to the southwest. Thanks to www.ufoinfo.com

Cyprus Orb

Limassol -- A resident has been left stunned after spotting a UFO in the sky above the city on Thursday, December 12, 2013. The resident left footage on YouTube claiming that: "***I saw this strange light hovering on the sky which also changed colors to green. At first I thought it was a plane but as it got closer this thing was quite big and was hovering on the sky for about an hour and 5 minutes.***" The photographer zoomed in on the object - but was still unable to identify what it could be.

The crystal clear video, which was filmed at the end of September, shows what appears to be a bright white ball UFO floating above the city. The UFO moves around with the photographer capturing its every move. Many internet users believe "***It is an unmanned aircraft called Icarus, used for search and rescue.***" The footage is just the latest in a series of incidents of unidentified objects in our skies. In 2007, a local TV cameraman also posted a clip he filmed on the YouTube website of a 'strange craft' in the skies of Limassol. The three-minute video, which was viewed by over 100,000 people showed a circular object hovering over the city. The UFO changed to a rugby-ball shape.

In 2002, the self-styled Egyptian UFO Hunter, Dr. Ibrahim shot a five-minute video of a UFO above the car park at Arnica airport. The film shows a green 'shaking' object and can be seen on his website. (<http://www.ufo-egyptian-hunter.org>). Thanks to FAMAGUSTA GAZETTE

Kenya Moving Lights

Nairobi — I don't know if anybody looks up in the sky at night but what are those bright moving lights on November 23, 2013, at 10 PM. When you spot them you see the lights have different colors red, and blue. They are many of these lights I've noticed and no way can this be stars because they change positions and distances, but the colors blink differently. I'm not seeing things! Take a look into the sky at night study the stars and you will see what I am saying. Thanks to Peter Davenport Director www.nuforc.com

Mexico UFO Fleet

Lazaro Cardenas, Michoacan District -- Thirty UFOs were photographed flying above the town that appear to have their own light source.

This fleet of glowing orbs was seen the second week of December 2013, coming from the Pacific Ocean. They were shown on prime time TV.

UK/ England Strange Photo of a UFO

DUNFERMLINE -- We were having our tea on December 5, 2013, around 5.45 pm and I noticed the Crescent Moon and then a really bright light that we thought was a UFO. With a little bit of research I learned it was Venus and with a closer look with binoculars we could see a saucer shape object hovering just left of Venus that was grey and illuminated. It sat stationary for at least five minutes. I tried to take a photo using my iPhone through the binocular lens. When I looked through binoculars it was now on the right hand side of Venus moving about the same speed as an aircraft. Then it fizzled out.

The strange thing is when I looked at my picture the object appears to be pointing vertical and it definitely was sitting stationary as my wife and daughter confirmed. We are not UFO hunters and our attention was mainly drawn to Venus as it was really bright last night in the southern sky. My wife suggested that it may appear vertical in the picture if I took a picture at a wrong angle. The tree line is visible, so that can't be explanation? I was lucky to capture the image through a basic binocular lens with the I Phone. Thanks to MUFON CMS

UK/Scotland Shape Changing

Glasgow – There was a bright light in sky, one red light to one side one green light to other side too fast to be a plane. No noise heard when it passed. It took an hour before the object started to move on November 22, 2013, at 9:15 PM. Lights came out from the object and sunk back in again as if to make you aware of its presence.

Then there was movement and we saw one red light at one side and a green/blue color on the other. We assumed it was a plane but the speed was too fast for any kind of "man-made" craft. It then hovered over the flats we were in and changed direction still within our view to where it sat for another half hour. Then it completely vanished. Support Earth Changing Research

I was sitting at my desk, pondering how I could get people interested in getting my work of the last thirteen years. I have put together a DVD of Filer's Files with hundreds of great photographs and UFO sightings.

Additionally, I have decided to include my book within the DVD that includes George Ritter's exciting abduction story by Linda Moulton Howe. Broadcaster David E. Twichell has also included much of his excellent dialog for a donation of only \$50.

We also include a year's subscription. Please include your e-mail address and mailing address.

Send check or money order to:
